ARC Facilities

YOU'RE NEVER ON YOUR OWN.

Your building information. Always within reach.

Reduce Risk. Protect Revenue. Ensure Business Continuity.

Building Plans + Construction

As-builts, floor plans and drawings—with construction and renovation information as your buildings change.

Keep as-builts, project documents and updates in one place, so everyone works from the latest information.

Equipment

Find equipment locations, details and documentation in seconds.

Access make, model, serial number, warranties, photos and more—on a phone or tablet, in the field.

Emergency Information

Organized and accessible emergency information so you prepare and be ready when it matters most.

Access shutoffs, emergency plans, life-safety information and other critical details, and share with first responders.

Forms & Inspections

Keep work moving in the field. Eliminate paper, log digitally.

Use digital forms on any device, complete inspections offline, add photos and notes, and keep records organized.

Legacy Documents

Bring historical building records together.

Store historical records, project documents, and other important files—all easily searchable, alongside your operational documents.

Mobile + Offline Access

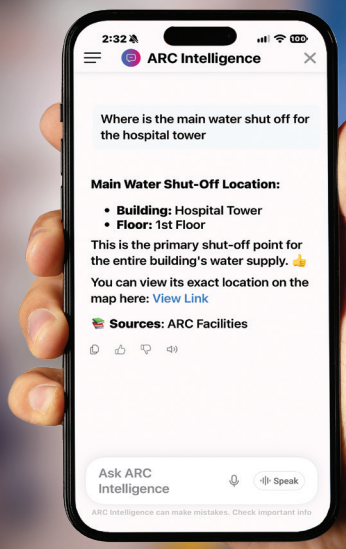

Information when and where you need it.

Works on phones and tablets, even without connectivity—built for basements, mechanical rooms and remote locations.

ARC Intelligence

Your Building Information.

- Find what you need, faster.
- Get direct answers with sources.
- Follow up questions to go deeper.
- Ask in a natural voice, like talking to a colleague

AI Equipment Capture

Take a photo. Create an equipment record.

Snap a photo of an equipment nameplate and ARC Intelligence extracts key details—like make, model and serial number—to help create the equipment record in seconds.
